## About the Collegiate

The University of Winnipeg Collegiate is committed to offering high school programs that provide an ideal transition to post-secondary education. The UWC philosophy emphasizes the need for students to become mature individuals within an atmosphere of self-generated discipline, where students can discover freedom and its complement – responsibility.

The UWC environment is one of academic freedom, and mutual trust and support. We enable our students to reflect upon moral and ethical issues, and to develop their concern for the welfare of others. We strive to engage them in a rigorous curriculum that will prepare them for – and encourage them to pursue – a lifelong love of learning.

Collegiate faculty participate in ongoing professional development, and are committed to providing our students with guidance and structure to develop their intellectual, social, and personal skills – in short, the education of the total person.
